

A topographic map showing a grid of land parcels. A red line forms a boundary across several parcels. Five specific points on this boundary are marked with black triangles and numerical values: 4.00, 3.70, 4.50, 4.30, and 7.10. A sixth point, 2.80, is located further down the boundary. Four coordinate pairs are provided for specific points on the boundary, each enclosed in a box. The map also shows a river or stream on the left side and various contour lines.
